

TEAM MEETING

Meeting Minutes

August 16, 2014

Opening:

The meeting was pre-decided on 16/08/2014 at 2:00PM.

Venue : Room no 316, OBH.

Present:

Adhish Singla, Nitish Jain, Romil Aggarwal, Shivam Khandelwal

A) Agenda

Finalize the libraries/process to make Tools.

B) Old Business

Research and find the best suitable framework/library/method to build Tools allocated in last meeting.

C) New Business

- Tool 1 was headed by Shivam and Nitish. Following was told :
 - Complete tool would be in Python (backend)
 - Backend work (Crawling and text processing)
 - NLTK library for language processing.
 - Scrappy library to ease the scrapping work.
 - MySQL database to store results and pre-crawled URLs.
 - Frontend of tool
 - HTML
 - CSS
 - jQuery
- In Tool 2 for the GUI part, Adhish and Romil came up with suggestion to use Qt library in python which is compatible with MAC/Windows/Linux to save rewriting same code again and again.
- Prototype design and implementation of the requirements of Tools assigned.

D) Next Meeting Dates and Time

- The next meeting is scheduled for next Saturday i.e. August 23, 2014 at 2:00PM

E) Adjournment

At 2:45 PM, the meeting was adjourned.
