

Client Meeting
Meeting Minutes
September 1, 2014

Opening:

The meeting was pre-scheduled to be held on 1/09/2014 at 3:50PM.

Present:

Neeraj Kumar Elluru, Mani Kanta, Adhish Singla, Nitish Jain, Romil Aggarwal, Shivam Khandelwal

A) Agenda

Discussion of progress made till now.

B) Important Points

- Nitish started the meeting with showing some of the graphical results which he had plotted using wavesurfer software.
- A complete description of the graphs was given by Nitish and Shivam regarding the noise reduction from the same
- Neeraj and Mani felt that the noise reduction process was good but due to it some data loss was there.
- They emphasised that no data loss should be there. They are ready to even negotiate with some amount sound.
- Doubts regarding the area specifying noise and data were raised by Nitish and Shivam and Neeraj and Mani clarified the same by showing an example.
- Shivam was also shifted to Sound Filtering with Nitish as it was required at first.
- Adhish showed the basic UI for Tool 2 for Linux Platform implemented in PyQt4.
- Neeraj and Mani pointed out that the text displayer was not compatible with Natural Languages like Arabic and Telugu.
- They wanted more and more languages to be supported by the UI also asked for a list of languages that would be compatible with the text displayer with their respective platforms.
- Shivam also suggested to use image of the text that is to be displayed, so that the displayer becomes language independent.

C) Adjournment

At 4:50 PM, the meeting was adjourned.
